

Footprints which have been dipped in paint....

- Chose as large a piece of material if possible for this and decide before you start where you want the footprints to go, randomly, in one direction, round a globe?
- Pupils need to put one foot in the paint and wriggle their toes, to enable an even coverage of paint
- Indicate where you want the student to put their foot, they will need to stand there for a while before carefully moving off the material
- Write their name by their foot with a felt pen

Equipment needed

- Material such as an old linen/cotton sheet
- Hessian
- Flat containers with different coloured paints, large enough for a foot to fit in!
- Liquid Paint if possible otherwise Powder Paint... School Poster Paint is long lasting and Prime colours stand out better
- Felt pen for writing name
- A bowl of clean water for washing feet afterwards
- Towel for drying
